## The Cultivated Life

Delhomme, Jean-Philippe

Jean-Philippe Delhomme is a prolific name in the world of illustration and often described as the Parisian answer to the smart cartoons that appear in the New Yorker. His instantly recognizable style is world-renowned in a range of media—from chic television ads for Saab to the boutique campaigns for Barneys and fashion advertising. **The Cultivated Life**, the first-ever English compilation of Delhomme's work, is a celebration of his gently satiric musings of "first-world" problems. This monograph includes over 100 illustrations and an insightful essay about Delhomme's work.
