The Heart of the Garden
Kirkpatrick, David

255 x 200 mm
192 pages

ISBN 9781920989682 - \$39.95 PB

QTY:

The Heart of the Garden is a collection of 20 very different Australian garden designs, from a sleek, modern Mediterranean-inspired courtyard, to a rambling family yard. Complete with landscaper's plans and plant list, this is a treasure trove of inspiration and information. David offers a wealth of practical solutions to site planning, water conservation, working with pools and water features, shading and groundcovers. Beautifully photographed by Julie Renouf, **The Heart of the Garden** welcomes you to a world where gardens are not just patches of lawn, paving and beds, but places that soothe the soul, restore the spirit and delight the eye.

Old Growth
McConchie, Peter

295 x 250 mm
168 pages

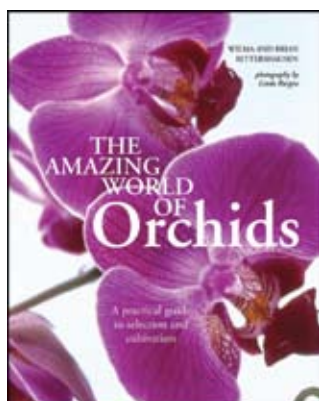

ISBN 9781740666275 - \$65.00 HB

QTY:

Centuries in the making, Australia's old growth forests are the perfect environment for sustaining a rich community of plants and native wildlife. More pressingly, it is now acknowledged that old growth forests are crucial in protecting the planet from the worsening effects of global warming. **Old Growth** is a collection of breathtaking photographs showcasing some of Australia's most beautiful - and most endangered - old growth trees. These magnificent, haunting landscapes are in equal parts a tribute and call to action. Our hope is that **Old Growth** will inspire change and help us all to protect our precious ancient forests.

The Amazing World of Orchids
Rittershausen

253 x 201 mm
224 pages

ISBN 9781844007110 - \$45.00 HB

QTY:

Exotic, yet surprisingly simple to grow and care for, orchids have won themselves an ever-increasing army of devoted specialist and amateur growers. This beautiful guide reveals the limitless fascination of orchids, reflecting the romance of their history, illuminating the triumphs of hybridization and providing the key to growing these exciting plants at home. Every one of the over 150 different orchids featured has been specially photographed to best capture their wondrous individuality. Each striking photograph is accompanied by detailed text on the plant's characteristics and individual needs.
